NO 39

TO WORK ARIZONA
GOLD PLACERS

Well Known Placers Around Gila To Be Worked on Large Scale By Dry Washers

PRODUCTIVE FIELD WORKED FOR YEARS

Are the banks of the Gila river, to be made to yield a richness equal to the golden quicksands of fabled Potosi? If they do not, then the calculations of A. L. Rose and a company of Los Angeles men he has associated with him are to be set at naught.

About a year ago Mr. Rose and Tony Contreras of Yuma filed on over nine hundred acres of placer ground near Dome, twenty miles from Yuma and along the Gila river. This filing was not made until after a deal was in prospect. The richness of the Gila placers, a fellow expense of treasure that extends for miles, is known about. Prospectors have resorted thereto time and again to get a sure grubstake. Indians and Mexicans have

by crude methods extracted a good living therefrom for years and still do so.

A dry washing process will be utilized by the new company.

Another recently invented dry-washer, the Quinmer machine has been at work on the Redondo placers near the King of Arizona mine for some time but no report has been made of progress.

The Automatic Gold Separating company has half a dozen machines already at work in Arizona, at Kingman, Gold Road and other points.

Chamberlain's Cough Remedy

Large Gypsum Beds Found In
Cochise County May Lead To
New Mining Industry

Tombstone parties claim there are large beds of gypsum east of Tombstone which might develop into profitable fields of mining. It is known that gypsum beds are to be found on the Buquillas land grant also in the Whetstones, all of which will some day be developed.

Gypsum is a mineral, soft, white or colorless, and is of great commercial value, as it supplies the material from which plaster of paris, stucco, wall plaster, cement and artificial stone is made. In the crude state gypsum can also be used as fertilizer.

CARDUI WORKED
LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer."

I went to the hospital, and they operated on me, but I got no better. They said medicine would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pain.

Cardui worked like a charm.

There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been in successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles.

N. B.—Write for Ladies' Advisory Dept., Chamberlain Medicine Co., Chamberlain, Tenn., for detailed instructions, and please send "Home Treatment for Women," sent in plain wrapper, on request.

A few minutes delay in treating some cases of cramp, even the length of time it takes to get for a doctor may prove dangerous. The safest way is to keep Chamberlain's Cough Remedy in the house, and at the first indication of cramp give the child a dose. Pleasant to take and always cures. Sold by all dealers.

Here lay more eggs if they have a change of food. The prepared Colton Egg Food is a mixture of grains, seeds and other egg producing ingredients. Telephone Ed H. Reeves' Coal and Feed Store, and he will send you a sack. Chick food for Little Chicks. VJ9

LATEST ARIZONA
MARBLE CUTTING
MACHINERY

A machine to saw granite and marble directly out of the hills has been taken into Tucson by the Santa Rita Marble & Granite company recently.

The inventor of the machine claims wonderful things for it and will make a demonstration with it at Tucson. The machine is a distinct step of progress in the quarry business and will be a great help if it does all that is claimed for it.

Italian Dance
a Great Success

The big free dance given last night by the Italian residents of Tombstone was certainly a decided success from start to finish. One of the largest crowds of the season was in attendance, and beginning at 9 o'clock sharp the merry dancers danced to the strains of the Accordion Orchestra, the first and only one of its kind in Arizona, until about 4 a. m., when the "Home Sweet Home" waltz was played. Free lemonade was served throughout the evening and at 11:00 o'clock the dancing was over. A big supper was served next door which was heartily partaken of and enjoyed. A most excellent time is reported by all.

Williams Votes
to Remain Wet

The ballots have been counted and by a vote of 108 to 72 the town of Williams yesterday went wet.

TOMBSTONE
BEAUTY SEEKS
DIVORCE

Mrs. Lucille J. Miller, nee Miss Lucille Rankin, formerly a resident of this city and known to its inhabitants as the "Sleeping Beauty" because of the fact that several years ago she allowed herself to be put under the influence of hypnosis by Prof. Roskopf, who was then giving exhibitions in this city, for a period of twenty-four hours, during which time she was sleeping in one of the local store windows, has brought an action for divorce from John N. Miller on the grounds of non-support.

The couple were intermarried at Clifton, this territory on or about June 1st, 1909. She asks the court for a decree dissolving the bonds of matrimony now existing and also for an absolute decree of divorce from the plaintiff, with permission to assume and use her maiden name. Mrs. Miller is now a resident of Bisbee.

Tombstone Town
Topics Tersely Told

Visitors to City; Local and Personal Items of Interest

Postmaster Francis Crable and wife returned today from a two day's visit at Cochise Stronghold.

Mrs. George Radfery returned to Bisbee yesterday afternoon after a brief stay, where she is constantly at the bedside of her husband, who is confined in the Copper Queen hospital. Advice had today as to the effect that the patient is resting easy, although very ill.

John Rook left this afternoon for Bisbee and Douglas.

Assessor Chas. R. Howe and Deputy H. S. Ross went to Douglas this afternoon.

Attorney Allen R. English has gone to Bisbee and will return on Tuesday.

Mrs. Pete Hunk returned to Bisbee today after a stay of several days in Tombstone.

According to the county records Judge Fletcher M. Dean has purchased the Myers residence in Douglas on 9th St. and his family will, upon their return from the coast, occupy the same.

Harry Creighton, inspector-in-charge of the customs service of the Arizona district, left yesterday for Douglas after a visit of several days in Tombstone.

Chas. Wright is in the city on a brief visit from Bisbee.

ARIZONA NEWS
OF INTEREST

Newsy Notes From All Over Arizona Carefully Condensed for The Prospector's Readers

Inspector Griffin on Sunday brought to Tucson a Mexican woman alleged to be of the undesirable class, for examination and probable deportation. He returned to his station Sunday evening.

Douglas, after several weeks of agitation, has decided that there shall be held a Cochise County fair and that it shall be held at Douglas. To accomplish this committee have been appointed and stock in the proposed fair association put on sale.

The Mexican residents of Tucson will celebrate September 16, the anniversary of Mexican national independence. Preparations for the event are already in progress.

Railway construction which has been in progress in North Globe for a considerable time has been practically completed by the Arizona Eastern and is pronounced of the most substantial character.

Latest reports of the Winkelman disaster make the death two, one an unknown Mexican child. Six were injured as first report stated. The financial loss is about \$250,000.

In Phoenix the police on Friday night raided an alleged opium joint and took three Chinese into custody. One of the prisoners declares that the real proprietor has not yet been apprehended.

S. W. Dougherty, who was thrown from a horse and dragged to death at Ray, was formerly employed in a Florence bank and later as a clerical

DENVER CONTRACTORS SENDING OUTFIT

Preparatory to beginning grading road.

On the Fairbanks-Tucson extension of the El Paso & Southwestern, George Allen and W. A. Lafferty are moving their outfit to Fairbanks and Benson from Denver where they tied up after finishing a grading contract on the Colorado and Southern railroad.

Government Seeking Potash Fields
In Arizona to Supply Market

A search for potash has been instituted by the department of agriculture and ten thousand dollars have been appropriated by Secretary Wilson to begin a campaign for testing out certain regions of the United States in which it is thought the potash salts may exist.

Although it is estimated that the Staufert mines could supply potash to the whole world for half a million years to come, yet the German government has put a limit on the quota

Rains Cause Washouts in Cochise
County--Crews Work All Night

As a result of the heavy rains had in this vicinity yesterday afternoon the many section crews of the El Paso & Southwestern system were called out last evening and repair work was carried on throughout the entire night.

Many minor repairs were necessary and among the important washouts had were reported at Land Station and Osborne and at the former place fifty feet of track were washed out making it necessary to refill the entire wash, which was fifteen feet deep. The section crew was kept busy until after daylight at this work.

At Osborne some thirty feet of track

was washed out, but owing to the fact that this part of the road has a rock bed the damage was repaired in a few hours.

The bridge between Fairbank and Benson, known as the big bridge, was partly washed away, making it necessary for the officials to hold the west bound train at Fairbank, and transfer the passengers to the Southern Pacific train at that point, thereby enabling them to make connections at Benson.

Several small washouts are reported on the Southern Pacific east of Benson, but being of no magnitude were rapidly repaired.

Tombstone Youthful Hero Kills Two
Monster Snakes Each Over 6
Feet Long

Tombstone has the youngest and bravest hero in all Arizona. Master Bradford Brandt, the 12 year-old son of cashier Brandt of the First National Bank of Tombstone, while at St. David yesterday, came upon a nest of huge rattlers. Instead of running, the plucky Bradford single handed, with no other weapon than rocks at hand, dispatched two of the snakes and brought the wriggling monsters home trophies of his hunt.

The snakes each measure over six feet in length, one having 12 rattles and the other 16 rattles. The snakes are on exhibition at the Bay City Market, and are the largest seen in this section for years.

Bradford carries his honors with the modesty of a hero, little realizing the danger and risk incurred, and enthralls in his relation of the exciting encounter.

NOTICE

Our fall round-up will start September the 5th. Will meet 4 miles below Benson on the 4th and work from the narrows up the river.
